IMPORTANT NOTICE

TO: LICENSED BINGO MANUFACTURERS
FROM: MISSOURI GAMING COMMISSION - BINGO DIVISION
DATE: JANUARY 24, 2003
SUBJ: DOUBLE PLAY BINGO CARDS

The Commission has recently been requested to review a double play bingo card for approval to be sold in the State of Missouri.

After careful consideration, the Commission has decided to approve the concept of a double play bingo card. However, since each manufacturer could have specific variations to the card, you must submit your company's card for approval prior to delivery to any organization licensed to conduct bingo in Missouri.

The double play bingo card must meet the legal definition of a bingo card (ie: twenty-five squares marked off in five horizontal rows of five squares each. Each square is designated by number, letter or by a combination of numbers and letters, except that the center square on the card shall be designated with the word "free"). The card must also contain specific instructions that each square is marked when either number contained within the square is called. The instructions must accompany all double play bingo cards delivered to licensed organizations. Any variation by the operator when playing this card could result in violations of Bingo Statutes and Regulations.

If you wish to seek approval to sell your company's double action bingo card in the State of Missouri, please submit the card or any questions to the Missouri Gaming Commission, Bingo Division, PO Box 1847, Jefferson City, MO 65102, or telephone 573-526-5370.
